

SPATE OF GUN AND KNIFE CRIMES IN THE UK

The High Commission of Nigeria in the United Kingdom wishes to commiserate with affected families, the Nigerian community and the general public over the recent spate of gun and knife crimes that have resulted in the needless deaths of many youth victims. The disproportionate burden to the Nigeria community of this unfortunate trend is particularly disconcerting. The High Commission calls on all Nigerians resident in the UK to remain calm law abiding and sustain their productive contributions to the host country, while it commits to work with all stakeholders in the bid to curb these incidents and eventually find a sustainable solution to the menace.
